So China is broke again. Now they have some idea of how the western farmer feels.

Summer vacation time is nearly here. We've noticed the beetles, bugs and ants picknicking in the back yard garden.

They told the wheat farmer he should go in for dairying, and now the crop in cream prices has made that go over.

Dr. Mc. Bennett and Mr. King would get a through their arguing the other members of the house would have a chance to get something worth while done.

THE HUSSAR CELEBRATION
The people of Hussar, desirous of escape from the province, are attempting to proceed with their annual Victoria Day celebration this year.

In a year like this when every agricultural community is suffering from depression and scarcity of money it takes courage and optimism to attempt the holding of a sports day with all its attending heavy expenses. And while the 1921 Victoria Day celebration in Hussar is not so elaborate or costly as the programs of previous years, still it is a good program, and represents considerable work and outlay of money.

The celebrated program this year was necessary in the face of existing conditions, but the Hussar people are determined to hold a celebration of some kind, and accordingly shaped their program to meet the needs of the times. The result is a program of athletic sports for the children in the morning, and a whole afternoon of Junior and senior baseball, with a dance at night.

Those who attend the Hussar sports day next Monday, May 25, may be assured of a good day's entertainment. The affair deserves the support of everyone to prove that Hussar can hold a good sports day even in hard times.

PAKING THE CENSUS
Canada's seventh decennial census will be taken this summer, commencing June 1. A huge army of workers has been organized for this great stock taking which is so necessary for the administration of the government and the well being of the people.

The success of the census depends largely upon the co-operation of the people. Without general approval of the ends in view, and without the cordial assistance of individual citizens toward those ends, a good census will be impossible.

Every question the census taker may ask is done so for the purpose of seeking valuable information that will be of benefit to Canada as a whole. No questions are asked merely out of curiosity.

A long list of questions are asked in connection with the census of course, but the form used for this purpose is simple. This report is absolutely confidential. The information in this report will not be used as a basis for taxation, nor communicated to any assessor, or other government department, is printed.

People should be prepared to meet the census taker in a friendly manner and answer all questions to the best of their ability.

Delicious Laundry
Visitor: "Well, Joe, how do you like your new little sister?"
Joe: "Oh, she's all right, I guess; but there are lots of things we need of more."

Domestic Trouble
Teacher: "Who has found Tommy out before?"
"Did your father write to him before?"
"Why I love teacher?"
"No he didn't, neither stop him."

The modern husband may find the safety pin who as a substitute for a button, but it is not so good for closing up the hole in the toe of a sock.

No Stability
A Los Angeles woman is reported to have left her husband six times and returned to him again in less than a week in each instance. It is this sort of thing that is apt to discourage the average husband.

Family Oracle
Mother: "You know, Geoffrey, Norma is nearly seventeen years old, so to-day I had a frank discussion with her about the lack of life."
P. father: "And Did you learn anything new?"

THE BASSANO MAIL, THURSDAY, MAY 25, 1933

OTTER BLOOD
By Grace Giddie
They called me a long time, all the far off places
Paris under evening lamps and London in the rain,
And though I heard the prairie wind and looked at neighbor faces,
My dreams rode into Cairo on a swaying camel-train.

I know the towns along the sea, the little steep-roofed houses,
Where life comes on by strange, romantic note and rule,
With people wearing wooden shoes and quaint embroidered blouses—
I have seen their pictures in the books I had at school.

I never saw the desert and I never saw the ocean,
My world is bounded by four walls and fields of wheat and rye,
But I know the way of ships and blue seas' mighty motion
In books are dire, disturbing things to give to such as I.

And when my son grew up his father used to wonder
What the boy was seeing with his far-off bounding eyes,
When a train three miles away went by like distant thunder
Or the white clouds hung like sails unfurled against the skies.

And when the boy came in one day as cheerful as a daisy,
His father stormed and fumed and spoke out "gypsy blood!"
And swore no son should leave him at spring sewing,
The boy went away, as I had always known he would.

His father says till yet that farming life pays better
Than shipping on a leaky tramp—as cheerful as a daisy,
And sending home a different postmark on one's every letter,
Farming does pay best, perhaps, but oh, I understand.

King of Siam Gets Souvenir of Worlds Grain Exhibition

Royal Visitor Acknowledges Souvenir Of World's Grain Show

"The handsome calendar which you were so kind to send to the King has been presented to His Majesty who commands me to express his thanks to you for your courtesy."

This writes Mr. C. V. Villars, private secretary to His Majesty the King of Siam, in acknowledgment of a souvenir of the World's Grain Exhibition and Conference.

When the ruling monarch of the Kingdom of Siam reached Moose Jaw, Saskatchewan, recently en route to the United States, J. M. MacArthur of the C. P. R. boarded the royal train and accompanied it to the international boundary. Arriving on behalf of the World's Grain Exhibition and Conference, he presented the royal visitor with a perpetual desk calendar, beautifully designed in brass and bearing the crest of the organization which, in kind, will be responsible for the conduct of the Regina of the most important grain exhibition and conference in the history of agriculture.

The calendar was similar to the one presented to each of the official representatives of 45 nations of the world at the World's Potato Congress at the Crystal Palace, London, England, last summer by John A. Mooney, managing director of the 1932 Exhibition and Conference.

The Kingdom of Siam has officially accepted Canada's invitation to participate in the World's Grain Exhibition and Conference at Regina next May.

Eighteen countries have at the present time officially accepted Canada's invitation to participate in the World's Grain Exhibition and Conference at Regina in 1932, as follows: Italy, Peru, Yugoslavia, Guatemala, New Zealand, Czechoslovakia, the Netherlands, Belgium, Poland, Spain, India, Switzerland, Estonia, the Philippines, Argentina, Spain, Portugal, and New South Wales, Australia.

Before the opening date of the Exhibition it is confidently expected that at least ten countries will take part.

Home Treatment
"Good morning, Mrs. Kelly," said the doctor, "did you take your husband's temperature, as I told you?"

"Yes, doctor, I borrowed a barometer and placed it on his chest; it was 'very dry,' so I bought him a pint of beer as he's gone back to work."

Try This,
Wife: "John, you play golf altogether too much, you are neglecting your business."

Husband: "The doctor says I must take my iron every day."

To the Holders of WAR LOAN AND VICTORY BONDS

A Statement by the Minister of Finance

»»

IN THE dark days of the War, Canadians loaned to the Government of the Dominion many hundred millions of dollars to enable the operations of the Allies to be carried to a successful conclusion.

When Canadians loaned their money to the Government, they received bonds which were promises to repay them the sum loaned with interest at the rate of 5% or 5½% per annum. On the 1st of October next, \$53,000,000 of these bonds become due; on the 1st of November, 1932, the maturity will be \$73,000,000; on the 1st of November, 1933, \$146,000,000; and, in 1934, \$511,000,000 must be provided for.

It would not be prudent, either in the interest of the security holders or the country itself, to wait until these loans become due before providing for their payment or conversion. Action must be taken well in advance of the due dates to protect the credit of the country. The Government believes this an opportune time to afford Canadians the opportunity to exchange the bonds, which they own maturing in the next few years, for new bonds of the Dominion of Canada carrying interest at the rate of 4½% per annum, which is a very attractive return. Prior to the maturity date of the present bonds, those who accept this offer will, of course, continue to be paid interest at the rate as provided by the bonds they exchange.

Canadians who have always shown confidence in their country are earnestly invited to exchange the bonds they now own for bonds of the new issue. By so doing, they will render less difficult the task of providing for the future finances of the country, will enhance its credit and will greatly assist the Government in the present period of worldwide readjustments.

No money will be asked for and no new bonds will be sold at this time. It is proposed to limit the present conversion to \$250,000,000, but the Government has the right at its discretion to increase the amount if Canadians indicate a general desire to continue their investments in the securities of their Dominion. The subscription books will close on the 23rd of May.

I earnestly seek the active support of my fellow Canadians in making this conversion, which is one of the largest financial operations our country has undertaken in recent years, creditable alike to Canada and its citizens.

Minister of Finance.

Technical School Teaches A Wide Variety of Work

We are in receipt of a bulletin of information on the work done at the Provincial Institute of Technology, Calgary. This is issued by the management on behalf of the students with the desire of assisting those young men to find jobs. The unemployed are with us from time to time but the unemployable are our most serious menace. Anything that we can do to find work for men who have the initiative and perseverance to spend time and energy in equipping themselves for special lines of useful work should be done.

The young men attending the Technical Institute are drawn from all parts of the Province and represent all lines of work in which training is given and is well illustrated. The bulletin describes nine different lines of work in which training is given and is well illustrated. The management the effort being made to bring the job to the man and to bring the right man to the job.

McNamee Praises Automobile
 O'F To-day.

A fine tribute was paid automobile engineers the other night when Graham McNamee, announcer for the General Motors "Family Party" radio broadcast, gave some outstanding facts concerning the operation of the Holland tunnel which connects New York with Jersey City, not year more than 12,000,000 motor cars passed through this great tunnel. They came from every state in the Union and from every province of the Dominion; and they included every make and type of car—old cars and new cars. And yet only one in 19,000 had motor trouble while in the tunnel. Only one in 18,000 had tire trouble. Even considering faulty driving, only one in 22,000 had a collision of any sort. In these figures, McNamee said, is condensed the whole story of automotive improvement, and the most convincing proof of the safety and dependability of the modern motor car.

Canada Burns Much Gasoline.

Some idea of the size of the gasoline business in Canada can be gained from figures which reveal an amazing consumption. The total number of gallons burned for all uses in 1929 was 601,226,477. The average consumption of motor cars in Ontario where 292,191,000 gallons were used. Of this amount 129,062,000 gallons were used by motor vehicles. It is interesting to note the varying averages per vehicle in the different provinces. In Alberta the average car consumed 449 gallons, while in Manitoba the average was only 216 gallons. The average for Ontario was 421; Nova Scotia, 144; P. E. I. 352; New Brunswick, 314; Quebec, 417; Saskatchewan, 356 and B. C. 374.

Safety First
 Be kind to little alloy cars. But not to alligators. Give tips to cooks and second mads. But never to dumbwaiters. Smile charmingly at parlor snakes. No matter how they bore you. But let all box contrabanders be. For fear they might adore you.

What Price Pleinisses?
 Pick out husbands like cantaloupes. With care your choice should be. It is not wise to choose the ones. That are too smooth outside.

The Bow on His Neck
 "Gifts to the guest of honor included a sewing cabinet, an electric percolator, and a table lamp."
 —Exchange—

Frequent Attention Means Constant Service

Your car must have frequent attention if it is to give the best service. Your car needs more than gasoline, water, and oil.

The battery needs inspection every ten days or so.

The chassis should be greased every 500 miles.

The motor should be kept free from carbon and running smoothly.

All nuts, bolts, and screws that work loose should be tightened up.

Frequent attention to these matters will save you costly repair bills and assure you of good service from your car.

YOU GET SERVICE AND SATISFACTION AT

Bassano Service Station

JAMES JOHNSTON,
"The Quality Store""The Romance of
The Reaper"

A photoplay of the invention and develop-
ment of harvesting machinery

We have been successful in securing the famous
picture, "The Romance of the Reaper," five reels of vital
history and interesting entertainment, and have made
arrangements with Mr. Ubertino to show these films in
connection with the regular show on

THURSDAY, FRIDAY, and SATURDAY,
May 28th, May 29th, and May 30th

The price of admission will be only the regular price
for the regular show. Two shows for the price of one.

He will also put on both pictures on Saturday after-
noon from 3 to 6 p.m. for the children—admission 10c,
and every child will be given a chocolate bar.

Do not miss the opportunity to see this film. We
want every man, woman, and child in the Bassano district
to see it and have, therefore, arranged for four
showings.

forty columns, recording for each
person the name, family, kind of
dwelling, age, sex, conjugal condition,
birthplace, citizenship or nationality,
racial origin, language, religion,
education, occupation, unemployment
etc., etc. in all necessary detail.
To meet the pressing demand for
facts regarding the number of un-
employed and the reasons therefor,
a number of questions have been in-
serted, after consultation with Domi-
nion and Provincial Government
authorities and leading labour orga-
nizations. This information will be
of first importance in assisting the
Government in its policy regarding
unemployment and labour problems
generally. The schedule relating
to agriculture was also drawn up in
consultation with Dominion and
Provincial Agricultural Departments
and other agricultural authorities,
and in the light of the suggestions
made for a world census of agricul-
ture by the International Institute
of Agriculture. It will elicit a wealth
of information on such features as
farm acreage, land values, build-
ings, implements, crops, fertilizers,
etc.

Provincial Crop Report

Issued by the Department of
Agriculture, Edmonton

Widely varying temperatures and
showers featured the weather of the
past fortnight. On May 6 the west-
ern part of the province received
moisture which will assure a fairly
even germination of grains and will
materially improve pasture condi-
tions. Unfortunately this rain did
not extend to the southeastern sec-
tion where very dry conditions con-
tinue. The Peace River district,
which had a fair carry-over of mois-
ture from the previous year, re-
ceived an additional supply on May
13, and excellent conditions prevail
in that part of the province.

In those parts of the province
where there is a fair moisture sup-
ply, seeding of wheat is completed,
and about 50 per cent of the area
devoted to coarse grains is sown.
In other districts seeding was delayed
awaiting additional moisture and re-
ports indicate that from 40 to 50 per
cent of wheat and 40 per cent of
coarse grains is sown.

The damage to crops from soil
drift is not as serious as might
be expected. The period of most
severe blowing occurred before seed-
ing commenced.

The sugar beet crop is 90 per cent
sown and progressing favorably in
the Lethbridge district. Further
west the moisture supply is more
limited and the stand is uneven. The
acres devoted to this crop for the
present season is 12,500 acres, a de-
crease of about 1,500 acres from
last year.

Reports vary with regard to the
probable average of wheat, but it is
generally conceded that there will
be a decrease. There will be a cor-
responding increase in the area sum-
mer-fallowed. More definite infor-
mation in regard to this matter will
be procured by the department in the
near future.

farm labour, orchards, small fruits,
farm gardens, live stock, poultry,
animal products, forest products,
land tenure, irrigation, drainage, co-
operative marketing, farm mortgages,
etc., etc.

The schedule on animals, etc., in
towns is supplementary to the agri-
cultural schedule; there are of
course a considerable number of
horses, cattle, poultry, bees, etc.,
within urban limits and their pro-
ducts, and those of market gardens,
town orchards, etc., are in the aggre-
gate important. The schedule on
industrial and business concerns col-
lects only the name, address and
class of each; this is for the use of
subsequent detailed inquiry which
will be conducted through the com-
pendium by the Bureau, and which
will afford a considerable body of
new data covering the hold field of
statistics. The record of the blind
and of deaf-mutes is to facili-
tate the work of educational and
other institutions for these classes.

The population in institutions will
be enumerated in the regular way
by means of the population schedule
proper, but it is intended that a
special inquiry shall be handled di-
rect from the Bureau with the heads
of institutions in order that not
merely the numbers of men, women
and children committed to such in-
stitutions may be obtained, but also
facts regarding the characteristics
of the inmates, causes of commit-
ment, the information which
will furnish the basis for a complete
analysis of problems incidental to
social life, and act as a guide to the
Provincial Governments and orga-
nizations engaged in social and welfare
work.

In connection with these some-
what elaborate and searching series
of inquiries the following points
should be understood: (1) that no
question has been inserted merely
for the gratification of curiosity or
because the information would be
interesting, but only because it has
a bearing on basic social or economic
conditions; and (2) that the answers
given by the individual are abso-
lutely confidential, every employee
of the census being under oath and
penalty against revealing any indi-
vidual's name and the Bureau of
Statistics itself being forbidden to
issue any statement that would lay
bare any personal matter. Though
the life of each person is taken
down this is not for the purpose of
associating the individual with any
of the facts that are recorded, but
merely as a check on the accuracy of
enumeration. The census is first
and last for statistical purposes and
cannot be made the basis of any di-
rect administrative action. Let it
also be noted that census enumerators
are required to use courtesy and
tact in collecting the information,
though refusal to answer a census
question is penalized by statute.
